TESTIMONIALS

★★★★★ 3 weeks ago
"Our puppy came with some bad habits that seemed impossible to break (and learned some more after she became part of our family). She was energetic, obnoxious reactive, and growing quickly. We worked with Shauna and Kristen who are both wonderful. We started with 5 puppy classes, which helped a lot, but we felt like she needed a little more more and did 3 follow up classes. She still has puppy energy and gets overly excited about things (because she's a puppy). But, now I have the tools I need to handle her on a leash and get her attention to help her relax during a stressful situation. Thanks for all your help! She's a completely different dog now."

"I could not be more pleased with the results of our training sessions! I took my rescue dog (Luna) who already had good manners but we just were not communicating well with each other and she had major issues with distraction. Each session we learned something new and I was able to learn how to communicate to her what I needed her to do. We even learned how to play together. The trainer was fantastic, patient, and gave very clear instructions. Not to mention you can't beat the price! We plan on returning for group sessions in the future."
