

# About Us

**Access Vascular Health: Michelle Maneevese, MD**, is a leader in the non-surgical treatment of men's and women's health conditions through diagnostic and vascular radiology procedures. Doctor Michelle Maneevese, MD, is a board-certified, fellowship-trained specialist in vascular and interventional radiology focusing on uterine artery embolization, **Fibroid treatment in Houston**, peripheral arterial disease, and fertility treatments. Doctor Maneevese has performed more prostate artery embolizations (PAE) than any medical practitioner in the Southern US. She is currently one of the few female providers of uterine artery embolization in the greater Houston area. Doctor Maneevese started her Houston clinic in 2021 to provide innovative and non-surgical outpatient interventional radiology treatments for men and women. Our goal is to encourage you to care for yourself with tools, knowledge, and minimally-invasive options. We want to make medical care human again.
