

Purified Water

Our purified water is meticulously treated with reverse osmosis, a robust filtration method. This process removes impurities, chemicals, bacteria, and toxins, guaranteeing the utmost quality and safety for your drinking water.

Alkaline Water

Alkaline water features an elevated pH accompanied by supplemental minerals, improving hydration and balancing body acidity. It offers advantages like better digestion, increased energy, and bolstered immunity by neutralizing acids and lowering the likelihood of digestive problems.

Spring Water

From the Kittatinny Mountains, our spring water, sourced at Mountain Wood Spring, embodies New Jersey's highland beauty. Enriched with natural minerals and cradled in pristine land, it offers a truly invigorating drink, preserving its pure allure.

About Us

We are a family owned water store located in the heart of Rochelle Park, New Jersey at 188 W Passaic St. Our team is dedicated to providing quality water and excellent service. We are very concerned about the safety of the water you drink. The most precious element on this planet is H₂O and our job is to preserve that. We deliver water to homes, businesses, hospitals, and anywhere water is needed. You can easily place an order on our website for delivery or in-store pickup.

Vision

Our vision is to establish a standard water refill station in Rochelle Park – New Jersey and other cities throughout the United States of America. We will become the number one choice for households, offices, and businesses.

5-GALLON PRICES

Mission

"QR" Stands for Quick Response and our mission is to have a high-quality production of water and service for our customers. Based on the latest technological advances we have decided to create pristine water for you, your friends, and your family. This will give us the opportunity to have an open wide market for everyone to be able to enjoy a healthy glass of water.

How?

We have integrated cutting-edge water purification technology through our advanced 6 stage state-of-the-art reverse osmosis system. Our commitment extends beyond delivering top-notch water; we excel in providing unparalleled service within the water industry. Please don't hesitate to place an order through our website.
