

**PARAGON
SECURITY**

Security Solutions you can Trust

Founded on first class customer service and support - with decades of experience in fire and security systems for some of the world's most demanding applications - Paragon Security is a UK-based specialist solutions provider you can rely on.

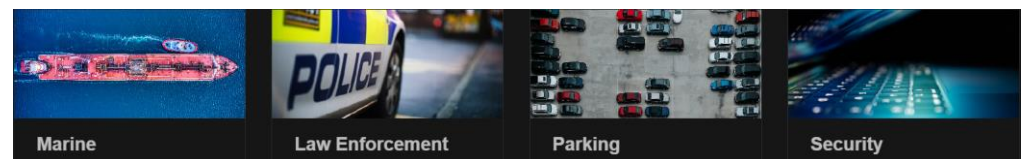

Professional products for durability

Paragon Security employs a dedicated team of experienced professionals who will provide fire and security products and systems of the highest quality, reliability and durability, for your organisation, vessel or site providing the security and safety you deserve.

Specialist Market Expertise

We are passionate about providing leading-edge and robust solutions, suitable for demanding markets and environments, which are straightforward to operate and maintain, certified for their use-class with ongoing support second to none. We lead the industry in the design, supply and support of harsh environment security systems with many years design & integration experience.

Service support second to none

Excellent customer service and support are the keystone of our business. We guarantee good communications, transparency and honesty in all our interactions with you.

We can provide any or all of the support services your project requires from initial design through to engineering support. Simply select the services you require from Design, Build & Test, Install & Commission, Service Support, Training, Consultancy, Security & Fire Risk Assessment, Monitoring and Fire Door Inspection.
